WHEN YOUR HAIR BRUSHES OUT

Your hair is as sensitive as your skin—even more so. It stands up under heavy hats, curling irons, and dyes of the scalp, etc.—But there is a limit. When you comb and brush your hair in the morning, watch for the "TRAILERS" that turn grey, fall out, and comb out with the first morning brush.

You MUST know that there's something wrong. If your hair was in good health, it wouldn't fall out, nature never intended that. There is something wrong at the root of things—the hair needs a tonic—a restorer.

When you are sick you take medicine. That's your first thought. Its turning grey, falling out, are both ways the hair has of "complaining of illness." It can't do it in any other way—Do YOUR part. Use HAY'S HAIR HEALTH.

DON'T NEGLECT CATARRH

Even in its early stages Catarrh is a most distressing complaint, known by its symptoms of stuffy feeling in the head and nose, roaring in the ears, mucus in the throat, difficult breathing, etc. When the blood comes thoroughly polluted with catarrhal matter the inflammation extends to the bronchial tubes, causing hoarseness and often an aggravating cough, the stomach is affected, resulting in dyspepsia, loss of appetite, and gradually all the mucous membranes of the body become diseased. Catarrh is a deep-seated blood disease and must be treated constitutionally; it is beyond the reach of local treatment. Only temporary relief can ever be had from the use of sprays, washes, etc. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter and at the same time building up the entire system. It goes down into the circulation and removes all impurities. Then as pure, nourishing blood circulates through the body, the inflamed membranes heal, all discharges cease and every symptom of Catarrh passes away. Don't neglect Catarrh; cure it with S. S. S. as thousands have done. Book on Catarrh and any medical advice free.
